Form No.: ST/____/____

Date taken: ____ / ____ / ____

Consent Form: Student Data for the NTA Test Simulator

Please read this before we give the student a login ID and password. If the student is under 18 years, a parent or guardian must sign.

1. What we keep

Student's name, date of birth, class, mobile number, login username, subscription plan and dates, and test history (scores, time taken, chapter results).

2. Why we keep it

Only to run the practice tests, show the student's progress reports, and manage the subscription. We do not sell or share it with anyone. Mobile numbers are used only to contact you about this account.

3. Who can see it

Only Sayak Sir. The data is kept in a private, password-protected account.

4. How long

While the subscription is active and for 6 months after it ends. Then it is deleted. You can also ask us to delete it earlier.

5. Your rights

You can ask to see, correct or delete the data, or withdraw this consent at any time. Contact Sayak Sir on 9831917170. Withdrawing means the login will stop working.

6. Complaints

If you are not satisfied, tell us first. You may also complain to the Data Protection Board of India.

I have read and understood the above. I agree that Science Tutoring may keep and use the student's data as described, only for the NTA Test Simulator.

(Tick one) [☐] Student is 18 years or older [☐] Student is under 18 (parent/guardian signs below)

Student's full name

Class

Date of birth (dd/mm/yyyy)

Student's mobile no. (required) *

Parent / guardian full name (if under 18)

Relationship to student

Parent / guardian mobile no. (required if under 18) *

Date

Student's signature (if 18+)

Parent / guardian signature (if under 18)

* Required. We cannot issue a login ID without the mobile number.

Don't just solve. Know why it works.
